

Block 12: 400 - 447 Main Street, Lots 13 - 24

Imagine being an early pioneer here and building a cabin on the main trail through town. You are fascinated by the passing bands of *Ute Indians*, and admire the cascading falls, and magnificent amphitheatre high above you to the east. *Uncompahgre* soon becomes the bustling city of *Ouray* and your residential neighborhood turns to commerce. The artist has made every effort to accurately reproduce this block's early structures from archival photographs.
